Raj:

After our discussion yesterday afternoon, I notified our contractors and data personnel to return to the original data distribution process where Mike Ortiz gets a review copy before posting to the data base and to ignore my previous directions based on the email from Tom Skibitski attached below. I apologize for any confusion on our part with the data distribution.

Best Regards

Warren Zehner
Federal On-Scene Coordinator
EPA 6

Subject: Rad data

Greg, Warren,

Please note that I am the New Mexico Environment Department Agency Representative to the Emergency Operation Center. Mr. Michael Otiz has been assigned to assist with technical review.

Please forward rad related data to me as it becomes available.

Thank you.
